Report on IIC Panel Discussion, Topic – “Make for the World”

The Department of Science & Humanities in association with Institution's Innovation Cell organized a Panel Discussion on “Make for the World” as part of the Government's Atmanirbhar Bharat Scheme to make India Self Reliant. Our college Chairman Er. B. Nitish Harihar, Pro Chairman Mrs. Aishwarya Nitish, Vice Chairman & Secretary Mr. G. Prabakaran, Principal Dr. Munusami Viswanathan Dr. M. Gowdhamamoorthi, Head, Placement Director Mr. Sai Gopala Krishnan, Department of P & T and S & H presided over the proceedings. The panel consisted of young entrepreneurs Startup Enthusiasts, Ms. Keerthana Venugopal, Founder, Lagna Events & a visual story teller; Mr. S. Premananth, CO Founder, Trapsi Bytes, a Startup Evangelist and Community Enthusiast and Ms. Sivaragavi, Chapter Director at Startup Grind, Youtuber, Digital Marketer and Social Influencer.

Our Principal Dr. Munusami Viswanathan gave the welcome address and introduced the panel members to the students. He asked the students to not just search for jobs but expand their horizons and dream big.

Mr. Premananth Chaired the Panel and kept the discussion lively and interesting. They discussed on the various aspects of Startups. They started off by differentiating between a business, trade, Entrepreneur business and startup business. They explained that an existing business with existing products or services can be called a business venture whereas a trade involves many products in a single business entity. A new innovative idea can be converted into a business plan by an entrepreneur but for it to turn into a startup it has to provide solution to an existing problem in the society. There will be no previous business model and it will provide solutions for unique requirements of the customers.

Ms. Keerthana Venugopal told the students that the most difficult part was to convince her family initially. She also mentioned while working on a startup there is no gender difference but your creativity plays a big role in establishing your idea.

Ms. Sivaragavi asked the students to identify their strengths and follow their passion. She suggested some motivational books for the students and shared links to her youtube channel.

Mr. S. Premananth told the students that start-ups require a lot of hard work and we cannot become an instant success. An employee will have only limited responsibilities whereas when you start your business you will be responsible for everything. Then he spoke about the importance of regular customers and expanding your market.

The panel also explained that the Government is very supportive of Startups in the current scenario and there are many government schemes and venture capitalists and Angel investors to provide seed money for embarking on a startup plan. Around 250 students participated in this online discussion and benefitted from the programme.

Mrs. M. Durga Priya was the Event Coordinator . Mr. Krishnamoorthi AP/ English delivered the vote of thanks.
